

! CAUTION

- All wiring should be done by a licensed electrician in accordance with state codes, local codes and National Electric Code (NEC) standards.
- Improper installation may result in serious injury and void warranty.
- May contain parts and assemblies susceptible to damage by electrostatic discharge (ESD).

Wiring

Two (2) knockouts are provided for power-in feed to the housing cavity where connections should be made.

Green is ground, black is line and white is neutral.

Mounting

1. Loosen the four (4) thumbscrews retaining the cover.
2. Remove the white housing cover.
3. Remove the screws in the four (4) corners retaining the LED mounting plate. Refer to Figure 1 for dimensions to mount the housing to the flat surface.

Note: LEDBM is designed for flat surfaces only.
